INTRODUCTION

I consider myself to be a responsible and organized person who takes pride in my work. I have done many web projects and I want to learn and use new skills. I am an engineering student who loves web development and can handle both front and back ends of websites. I know different tech stacks and I can manage every part of a project. I also have experience in web development, AIML, cloud technologies, and I am good at solving problems.

COMMUNICATION

English - intermediate

Hindi - advanced

Marathi - proficiency
